Human Resources Manager

IBM Philippines

30th Floor PBCom Tower, 6795 Ayala Avenue, Makati City

Metro Manila, Philippines

Dear Hiring Manager,

I am excited to apply for the Information Systems Analyst position at IBM Philippines. As a second-year Information Technology student at Batangas State University, I am eager to apply my technical expertise, problem-solving skills, and analytical abilities to contribute to IBM's innovative and forward-thinking environment.

Throughout my academic journey, I have developed strong programming skills in Java and Python, along with system analysis and database management knowledge. My coursework in software development, data structures, and IT project management has equipped me with the necessary skills to analyze and optimize information systems effectively. Additionally, my role as Chief Technology Officer in the GULWAY Start-Up Project, where my team secured 1st place in a competition, has honed my ability to collaborate, innovate, and lead in tech-driven environments.

I am particularly drawn to IBM's commitment to cutting-edge technology and digital transformation. Your emphasis on AI, cloud computing, and enterprise solutions aligns perfectly with my passion for technology-driven problem-solving. I am confident that my technical skills, adaptability, and eagerness to learn make me a strong candidate for this role.

I would welcome the opportunity to further discuss how my skills and enthusiasm align with your team's goals. Thank you for your time and consideration. I have attached my resume for your review, and I look forward to the possibility of joining your team.

Sincerely,

Edwin Christian E. Bacay
